About Natural Mine Chem

Company Overview

Founded in 2016, with headquarters in Morbi, Gujarat, India, Natural Mine Chem has grown into a trusted partner for industries worldwide.

We specialize in delivering high-quality minerals and chemicals to support the Ceramics, Paper, Paints, Rubber, and Chemical industries.

Key Achievements

Since 2016, Natural Mine Chem has grown from a local supplier to a trusted global exporter, serving Asia, Africa, and the Middle East with reliable mineral solutions.

Equipped with modern plants and strong port connectivity, we deliver consistent quality while promoting sustainable and cost-effective practices for our clients worldwide.

Corporate Vision & MISSION

At Natural Mine Chem, our vision is to become a global leader in sustainable mineral supply, providing industries across the world with reliable and innovative raw material solutions.

We are committed to delivering consistent quality that supports ceramics, paper, paints, rubber, and chemical industries, ensuring that our clients can always depend on us.

At Natural Mine Chem, we deliver high-quality minerals and chemicals while building trust and long-term partnerships with our clients.

We focus on sustainable practices and eco-conscious solutions, ensuring reliable, responsible, and cost-effective services worldwide.

Prospecting, exploring & mining

At Natural Mine Chem, we begin with prospecting — identifying and evaluating high-quality mineral deposits using advanced geological techniques. Our goal is to locate the best resources that meet the strict standards of the industries we serve.

Through exploration and mining, we carefully extract and process minerals using modern, efficient methods. Sustainability, safety, and precision are at the core of our operations, ensuring consistent quality while minimizing environmental impact.

Processing

We use state-of-the-art plants to refine minerals to exact specifications.

Advanced equipment ensures consistent quality and efficiency in every batch.

Our processes are designed for sustainability, safety, and reliability.

At Natural Mine Chem, we ensure that our products reach clients safely, on time, and efficiently. With strong port connectivity from Mundra Port, India, and reliable transport partners, we manage a seamless supply chain for domestic and international shipments.

Shipping & Logistic

Our logistics team monitors every stage of delivery, from warehouse handling to container loading, guaranteeing consistent quality and timely dispatch. By combining modern tracking systems with experienced personnel, we make global mineral exports hassle-free for our clients.

Research & Development

Innovating mineral solutions to meet evolving industry needs.

Testing and refining processes to ensure consistent product quality.

Developing eco-friendly and sustainable practices for responsible mining.

Customized Raw Material solutions

1. Tailored Formulations:

We develop mineral and chemical blends specifically designed to match your production needs. This ensures optimal performance, consistency, and efficiency across your operations.

2. Industry-Specific Support:

Our solutions cater to diverse industries such as Ceramics, Paper, Paint, Rubber, and Chemicals. Each formulation is engineered to meet unique process requirements for maximum output.

3. Quality Assurance:

Every batch undergoes strict laboratory testing for purity, particle size, and other specifications. This guarantees consistent quality and reliable performance for all clients.

4. Sustainable & Cost-Effective:

We focus on eco-friendly sourcing, efficient processing, and optimized logistics. This approach delivers value to clients while minimizing environmental impact.

Our Products

Natural Mine Chem offers a wide range of high-quality minerals and chemicals sourced from trusted reserves. Our products are refined with precision to serve diverse global industries.

From ceramics and paper to paints, plastics, and drilling, our solutions ensure consistency, sustainability, and performance in every application.
